"At one of our examinations," says a member of the faculty of a western university, "a nervous student had been instructed to write out examples of the indicative, subjunctive, potential and exclamatory moods. His efforts resulted as follows: 'I am endeavoring to pass an English examination. If I answer 20 questions, I shall pass. If I answer 12, I may pass. Ogd help be!'"—Harper's Magazine.

Lumberjack's Appetite.

We heard some time ago that the managers of the lumber camps had decided to refuse free feeds to the vagrant lumberjacks, drifting from camp to camp, but not till we saw a lumberjack eat did we understand the fine impulse that led to the decision. After eating his fill, if one of the fellows should try to push his way down a logging road, he would get stuck between the trees and probably stay there until he starved.—Detroit News.

Tracing Origin of "Gob."

A side-light was thrown upon the word "gob" by the Scotsman of August 4, 1890, which said that when a meeting of the constable takes place the men indulge in protracted yawns, a draw of the pipe, and a friendly chew. Such a session is invariably productive of a considerable amount of good-natured banter, as well as free expectation all around, wherefrom our friends came to be known as "gobblers" (from "gob," the mouth). In the process of time, gob and gobbler, to be applied to the ships manned by the gobs.

A druggist reports that the sale of cosmetics has increased 25 per cent since the movies became popular.

What Happens in the Dark?

The farmer receives on an average only about one-third of what the consumer pays for meats, grains, fruits, wool, vegetables and cotton. Somewhere between producer and consumer an enormous toll is added to the cost of farm-grown necessities.

The city consumer, not seeing the profit-taking along the road to him, blames the farmer for high prices. The local farmer, not knowing just what does happen in the dark, is at the mercy of the system. To turn on the light is one purpose of

THE FARM-BUREAU MOVEMENT

Your local farm bureau is an important link in the great American Farm Bureau Federation which is fighting the farmer's market battles for him. The Federation has no quarrel with honest middlemen or efficient merchants, but it does have with the gouging in-between, speculators and gamblers.

The Federation is demanding that the Government hasten to furnish official figures on the cost of producing farm crops so that the public may know and attention be focused on what happens in the dark.

Many other big, constructive plans that you are too busy to attend to are being pushed for you by the Federation, and THE COUNTRY GENTLEMAN urges you not to remain neutral

but to join your local farm bureau, if you are not already a member, and to help fight your own battles.

Out of wide national experience THE COUNTRY GENTLEMAN advises this. Its editors and contributors travel 300,000 miles a year to study your problems and to put its shoulder to every good movement in your interest.

If you are not a neutral farmer we would like to count you among our subscribers. Send us \$1.00 for a yearly subscription and we will mail you fifty-two big issues crammed with farm news, courage, smiles, many proven helps and well-tried plans, strong cartoons, good pictures, bully fiction—a total of 3000 pages of help and hope, of national service to farmers.
